

REMARKS

Replacement sheets containing new Figures 5 and 6 have been submitted. The substitute Figures do not add or constitute new matter, and are supported by the application as originally filed.

The changes made to Figures 5 and 6 are in response to the "Notice to File Missing Parts of Nonprovisional Application". It was asserted that Figures 5 and 6 were not acceptable because the drawings must be reasonable free from erasures and must be free from alterations, overwriting, interlineations, folds, and copy marks. Applicant does not believe that the originally submitted drawings contained such informalities. However, Applicant has submitted the replacement drawings which have merely cleaned up the lines and shading to attempt compliance with the requirements set forth in 37 C.F.R. § 1.84 and 37 C.F.R. § 1.121 as requested in the Notice. No changes have been made to the data or information contained in the figures. As such, no new matter has been added in the replacement drawings.

Applicants request entry of the substitute drawings.

Respectfully submitted,
